## Continuum Health Partners

Continuum Health Partners was created in January 1997 as the parent company for the partnership between four distinguished voluntary hospitals: Beth Israel Medical Center-Milton and Carroll Petrie Division, Beth Israel Medical Center-Kings Highway Division, St. Luke's Hospital and Roosevelt Hospital. Building upon the strength of these institutions, Continuum developed a broad-based, integrated health services network extending throughout the New York metropolitan region. In 2000, The New York Eye and Ear Infirmary, located on Second Avenue and 14<sup>th</sup> Street in Manhattan and the oldest specialty hospital in the Western Hemisphere, joined the Continuum family, broadening the influence of each member institution and the partnership as a whole.

Each of Continuum's partner institutions was established more than a century ago by civic-minded individuals with a shared mission to improve health, and health care, in their communities. Acutely aware of this heritage, Continuum remains committed to delivering excellence in accordance with the highest standards of medical practice, while also pursuing groundbreaking research and striving for new ways to enhance services to patients.

Today, Continuum has an annual operating budget of over \$3 billion and delivers inpatient care through five major hospital facilities in Manhattan and Brooklyn. The Continuum network also encompasses ambulatory health centers and group and private practice settings throughout the New York metropolitan region. Continuum operates more than 2,200 certified beds; provides for over 550,000 days of inpatient care and over one million outpatient visits; partners with more than 4,400 affiliated physicians; and maintains a workforce of over 14,000 individuals, making it one of the region's largest private employers.
