

## WHAT TO EXPECT WHEN YOU ARRIVE

### For Applicants arriving in June/July

Orientation for incoming House Staff begins around the third week in June; however, contracts for many departing House Staff do not end until June 30<sup>th</sup>. Herein lays a problem over which we have no control. Many apartments for incoming House Staff will not be ready for occupancy until July 4<sup>th</sup> or later. We strive to move in most tenants on or about July 1<sup>st</sup> (as soon as an apartment is vacated, cleaned and painted, if necessary).

Please arrange to have your furniture and other items delivered to your apartment after you have received keys for your apartment. The building staff is not able to accept any deliveries such as United Parcel Service, Federal Express, Furniture, etc. Please note someone must be home to accept delivery of your items as well as provide access to providers of cable, telephone, and other such services. Storage space is not available in the residential buildings.
