Beth Israel Medical Center Programs and Services

***Meeting All Your Health Care
Needs Is Our Goal***

www.BethIsraelNY.org

Beth Israel Medical Center is a full-service hospital dedicated to serving all your health care needs. Some of our programs and services include:

Stuyvesant Square Chemical Dependency Treatment Center

(212) 420-4220

Provides multiple substance abuse programs for adults 18 years of age and older. Special services are available for patients who are pregnant or under the care of a psychiatrist.

Karpas Health Information Center

(212) 420-4247

Provides numerous health education lectures, workshops, screenings and health fairs. Walk-ins and phone calls are welcome to obtain health information on various health topics and concerns.

Pain Medicine and Palliative Care

(212) 844-8970

Provides a broad array of therapies, utilizing individualized plans, for all types of chronic pain.

Friedman Diabetes Institute

(212) 420-3450

Provides nutritional counseling, educational initiatives, exercise and wellness programs for diabetes sufferers.

Internal Medicine (Asthma)

(212) 420-4001

Provides medication and education for individuals suffering from the chronic illness.

Gastroenterology Department

(212) 420-4015

Provides a range of services related to the prevention, treatment and maintenance of Hepatitis C. Liver biopsies and medication are available to help sustain viral load suppression in patients with a history of intravenous drug abuse.

For a complete list of services available please visit us online at www.BethIsraelNY.org

Additional Services Available Exclusively for MMTP Patients

Physician Coverage - After Clinic Hours

Medical situations do not always occur during clinic hours. If you have a medical problem after hours you can now speak with a doctor.

For physician coverage after clinic hours please call **(212) 420-2059**.

Please note: This number should not be used for missed medication or dose adjustments.

24/7 Emergency Transportation

Round-the-clock transportation to Beth Israel Medical Center's Emergency Department (1st Avenue at 16th Street) is now available through TransCare. There are many benefits to using this service including:

- **Better Communication**

If you are hospitalized, it will be easier and faster for the hospital staff to verify your methadone dose with your clinic.

- **Medication Maintenance and Overall Care**

Your comfort and care while hospitalized are important to us. Members of our medical staff are available to visit you and provide pain management consultations. The staff will also be available in person or on the phone to make methadone dose adjustments if appropriate.

To enroll for this service, please speak with your nurse or counselor.
