Cardiovascular Disease Prevention Program

Dear Patient:

Welcome to the Cardiovascular Disease Prevention Program of the St. Luke's-Roosevelt Hospital Center Division of Cardiology.

Also posted is a health questionnaire ("Intake Form") that we would like you to complete and bring with you to your first visit. Please fill this out as best you can. Please also bring copies of your latest blood tests, any other health information and names and addresses of your other health care providers.

Our offices are located at 425 West 59th Street, Suite 9D (between 9th and 10th Avenues) and at 374 West 125th Street, between Morningside and St. Nicholas Avenues. To schedule an appointment, please call us at **212-492-5550**. Please arrive 15 minutes prior to your scheduled visit in order to complete registration forms. We try to keep appointments running on time, so we cannot guarantee that late arrivals will be able to be seen. We ask that any cancellations be made at least 24 hours prior to your scheduled visit. We accept Medicare and many insurance plans. Please confirm ahead of time that your plan is accepted.

Please note that the Cardiovascular Disease Prevention Program is focused on reducing risk for heart attacks, stroke, and peripheral vascular disease. Our team at St. Luke's-Roosevelt looks forward to assisting you in achieving your goals to lower your risk for cardiovascular disease.

Merle Myerson, MD, EdD, FACC
Director, Cardiovascular Disease Prevention Program
